PLAN SUBMITTAL COMPLETENESS CHECKLIST

		PRELIMINARY DESIGN SUBMITTAL:	FINAL DESIGN :	
FIR:	ST SUBMI	TTAL: RESUBMITTAL:	AL:	
l ce	rtify that th	ne drawings accompanying this submittal include the mi	nimum requirements listed on this checklist.	
	Prope	erty Owner, Designer or Builder's Signature	Date	
_	One (1) set	t of drawings, maximum 24"x36" printed to scale with minimun	n 3/32" text height nlus one (1) set digital PDF set	
	of drawing		in 5/62 text neight, plus one (i) set digital 1 21 set	
	Drawings are dated. If this is a resubmittal, revised drawings show the date(s) revised and all changes are clouded with a			
	delta corresponding to the applicable revision date.			
	Survey prepared by a registered surveyor or registered civil engineer			
	o Scale: 1" = 20'-0" or larger [™]			
		t boundaries and dimensions		
		tbacks and dimensions		
	o Ea	sements		
	о Тој	pography (one-foot contours) with elevations noted		
	o Ma	Major terrain features (rock outcroppings, washes, etc.)		
		getation (trees of 8" caliper or greater)		
		t size (measured in SF and in fractions of an acre)		
	o Exi	isting Utilities		
	Architectural Site Plan			
	o Sc	ale: 1" = 20'-0" or larger showing entire lot; 1" = 10'-0" minimum	n at critical grading areas.	
		ilding envelope and setbacks	3 - 1 - 3 - 1 - 1	
		sidence and all other structures including roof overhangs		
		nish floor elevations		
	o Co	nceptual grading & drainage plan ^v		
		iveway – call out proposed material and color		
		rking area(s) – call out proposed material and color		
		ash enclosure		

- o Mechanical equipment locations and proposed screening
- o Proposed utility meter locations and underground utility routing
- o Walls and fences
- o Address sign
- o Location and size of existing trees. Indicate which trees are proposed to be removed.
- o Area calculations
 - Total Livable Area
 - Total Non-Livable Interior Area (garage, storage, etc.). Show area for each space.
 - Total Outdoor Porch / Patio / Deck Area
 - Total Area of Driveway and Paving
 - Total Disturbed Area Calculation measured in SF and as a percentage of the gross lot area.

PINE CANYON DESIGN GUIDELINES | PLAN SUBMITTAL COMPLETENESS CHECKLIST

- ☐ Floor Plans
 - o Scale: 1/8" = 1'-0" or larger
 - o Exterior building dimensions
 - o Interior garage dimensions
 - o Dimension of garage door to wall face
- ☐ Roof Plan
 - o Scale: 1/8" = 1'-0" or larger
 - o Roof overhang dimensions all overhangs
 - o Roof pitches all roofs
 - o Proposed materials and colors
- □ Exterior Elevations
 - o Scale: 1/8" = 1'-0" or larger
 - o Topography existing and proposed
 - o Dimensioned grade to ridge heights
 - o Proposed materials and colors
- ☐ Additional Requirements for Final Design Submittal
 - o Grading & Drainage Plan prepared by a registered civil engineerii
 - Scale: 1" = 20'-0" or larger showing the site area where existing grades are proposed to change; 1" = 10'-0" minimum at critical grading areas.
 - · Building envelope and setbacks
 - · Proposed residence and all other structures
 - Downspout locations (if any) and edges of roofs that will have sheet flow. Show roof area being drained and slope.
 - Driveway and parking area(s)
 - Finish floor elevations
 - Existing topography @ one-foot contours
 - · Location and size of existing trees. Indicate which trees are proposed to be removed.
 - Proposed grading @ one-foot contours
 - · Proposed site walls with top and bottom elevations
 - Percentage of slope in key areas (e.g. driveway)
 - Drainage flows
 - Culvert size and headwall if applicable
 - Statement that "No drainage or run-off will be diverted to adjacent properties."
 - Complete working drawings suitable for Building Permit including architectural details of building components covered in the Design Guidelines.
 - · Roof framing plan
 - · Roof overhang detail
 - · Roof facia detail
 - · Window jamb detail
 - Door jamb detail
 - Garage door jamb detail
 - · Elevated deck framing plan
 - Crawl space access and ventilation
 - o Exterior lighting plan
 - General description of the fixture type(s).
 - · Table summarizing the exterior lighting showing the type of lamp(s) with Kelvin temperature and lumens.

If the DRC reviewer finds these plans do not include all items listed on this checklist the plans will not be reviewed for compliance with the Design Review Guidelines.

¹ Added requirement that plans must be printed to scale and minimum text height 1/8/2021.

ii. Added 12/18/2019.

iii. Changed minimum scale on 1/8/2021.

iv. Changed minimum scale on 1/8/2021.

^v Revised 12/18/2019. Requirement for conceptual grading and drainage plan added to the Preliminary Plan Submittal Requirements and previous.
